ANNOUNCEMENT

The Sun's management has no desire, whatever, to force this newspaper upon anyone to whom it is being mailed at the present time. If those who are receiving it in place of the now defunct Eastern Utah Advocate want The Sun discontinued it is a very easy matter to do so. Just notify the postmaster, The Sun office by letter, postal card or telephone or any employee personally.

When The Sun was established it was a foregone conclusion that the Eastern Utah Advocate was soon to be a thing of the past. Feeling that persons who had paid their money for the Advocate are entitled to a newspaper, The Sun in many instances is being sent them instead of the Advocate for the time they have paid in advance for the Advocate.

In the litigation in connection with recovering the printing plant of the Advocate, the manager of The Sun was by Judge Christensen of the district court awarded the subscription books and mailing lists of the Advocate. The manager of The Sun feels it obligatory, under these conditions, to see that former subscribers to the Advocate are taken care of.

Probably seven-tenths of the subscribers of the now defunct Advocate are friends and acquaintances of the editor and manager of The Sun. The Sun anticipates that the greater portion of these will remain loyal to it.

THE SUN'S ADVICE IS TO PAY NO MONEY ON SUBSCRIPTION ACCOUNT TO THE EASTERN UTAH ADVOCATE OR THE NEWS-ADVOCATE.

—The Burton went to Jensen Wednesday to vaccinate about ten head of cattle for the blackleg. —Francis Prince and son, George F. Prince, highly respected residents of New Harmony, were here Wednesday on land business. The latter reports crops looking good in his section, though not quite so good as last year owing to cold and backward weather. —The twilight sketch was most conspicuous in bringing out the excellent quality and the harmony of the voices. The auditorium was darkened and only lights with a floodlight effect were left, the quartet giving a number of songs of long ago, and popular hits. "On the Road to Mandalay," given by Carl McKee, and "Then You'll Remember Me," by Raymond Green showed the excellent soloists which the organization has, and "In the Evening," and others by the group elicited much applause.—Rockford (Ill.) Morning Star, March 21, 1915.

The above refers to the Lyric quartet, which appears under the auspices of the Epworth league, at City Hall in Price next Saturday evening.

An advertisement posted in a window may attract the passerby. An advertisement on a billboard or a street corner may likewise attract those who pass, but an advertisement in the newspaper goes to all those that cannot be reached by the other method. It goes into every home and is read by every member of the family. Think what a page, or a half page, or a quarter page in the newspaper might do for you. You are neglecting your own business and yourself when neglecting to take advantage of newspaper advertising. If you do not know this, then you are not as wise as the big merchants of big cities. If your time is worth anything, then other kinds of advertising cost you two and three times as much as newspaper advertising. Try the right way and see what results will follow.

W. H. Garvin, manager of the Utah Fruitgrowers' association, has returned from Colorado and says: "The Western States will not be so heavy as the 1914 crop owing to frosts in many sections and because an exceptionally good crop rarely follows another within the space of a year. I draw this statement as a general conclusion although I have not yet had time to thoroughly look into the entire field. I have not been north in Utah in the vicinity of Brigham City and Cache Valley sections so I am hardly in a position to say definitely what the crops there will be this year."

I. P. Harlan, mayor of Moberly, Mo., and at the head of several automobiles filled with Missourians, passed through Price the first of the week traveling from his home town to the exposition at San Francisco. The party, next to seeing the country, is on the Map of Fifteen Thousand. They had encountered no mishaps thus far and stated that the roads on an average through Eastern Utah, the Midland trail, are as good as those of Colorado or the mountain country in general. Kansas roads are an improvement over those from Price to Grand Junction, Colo.

L. A. Hills was on the sick list the greater part of last week, but is back on the job. McKee Forwarding company's Mr. and Mrs. McKee were not disturbed on their trip to the reservation by the sudden illness of Mr. Hills.
